Summit

Monday September 17, 2018

Full day event focused on the evolving mobility ecosystem, intended to help key decision makers better understand the technological and business model changes that will impact mobility moving forward. This understanding will be essential as regulatory bodies consider the changes that will need to be introduced for insuring Canadians' mobility. Our committee has devised a program packed with high-profile speakers!!

Topics Include:

- Disruption in Mobility
- Understanding Vehicular Connection
- Semi-Autonomous and Beyond
- Learnings from California: World's Leader in AV Testing
- Legalizing AV Usage in the UK & the Role of Insurance
- An Insurer's Perspective of AVs
